

In the Specification:

Please amend paragraph 0066 as follows:

~~FIG. 7~~FIG. 8 is a top view illustrating one example of a suitable array of apertures.

According to this embodiment, the array of apertures comprises a pair of slots 30 located at the corner of the die 32. At least one portion of a slot extends parallel to the first direction or the second direction. According to the illustration of FIG. 8~~FIG. 7~~, the array of apertures comprises a pair of slots having an L-shape formed in the conductive ring 28 at the corner portion of the die 32. As shown, the apertures comprise at least two L-shaped slots 30 formed in the corner portion of the conductive ring 28.
